ITA14 - ETHICAL HACKING
EX - 5

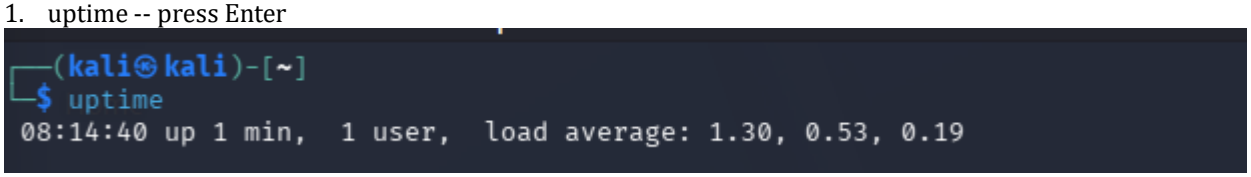

Execute and display the results for the following commands in Kali Linux Operating Systems: i) Uptime ii) Date iii) Mv

Aim

Execute and display the results for the following commands in Kali Linux Operating Systems: i) Uptime ii) Date iii) Mv

Procedure

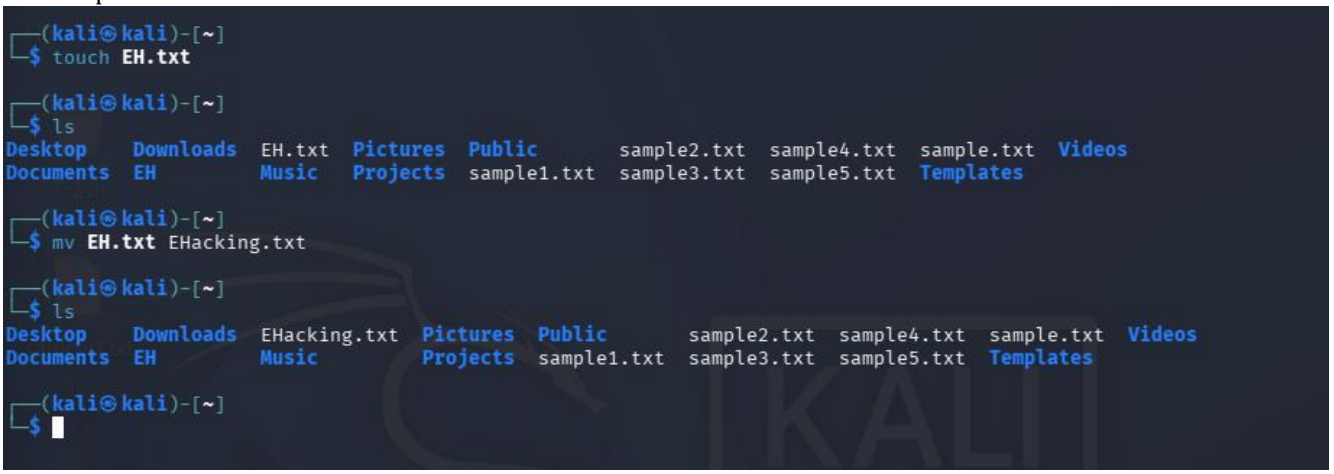

- Open Kali Linux
- Open terminal
- uptime command
    1. uptime -- press Enter

- date command
    1. date -- press Enter

- mv command
    1. touch EH.txt -- press Enter
    2. ls -- press Enter
    3. mv EH.txt EHacking.txt -- press Enter
    4. ls -- press Enter

Result:

Thus, the uptime, date, and mv commands were executed successfully in Kali Linux. The uptime command displayed the system's running time and load information, the date command displayed the current date and time, and the mv command renamed EH.txt to EHacking.txt.
